Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 6-21, drawn to apparatus, classified in class 248, subclass 74.1.
- II. Claims 25-28, drawn to methods, classified in class 405, subclass 154.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, and II are related as apparatus and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the apparatus as claimed can be practiced with another materially different apparatus or (2) the apparatus as claimed can be used in a materially different process of using that apparatus (MPEP § 806.05(h)). In the instant case, it can be used as a cable holder.

A telephone call was made to Catherine Klima-Silberg on March 9, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.
